Buffalo Drive Roadway Improvements Begin April 25

Work And Lane Restrictions Continue Weekdays Through June.

Starting Thursday, April 25, 2019, and continuing through the next 8 weeks, utility adjustments, milling, and paving operations will occur on Buffalo Drive between Lake Mead Boulevard and Cheyenne Avenue. Work hours will be 7 a.m. to 5 p.m., Monday through Friday. Between the hours of 3 p.m. and 9 a.m., traffic will be generally restricted to two travel lanes in each direction, north- and southbound. Between the hours of 9 a.m. and 3 p.m., traffic will generally be restricted to one lane in each direction, north- and southbound. Primary work activities of milling and overlay repaving will take approximately two weeks within the 8-week schedule, subject to equipment availability. Following the paving, the utilities/manholes will be raised to be flush with the new pavement.

Rampart Boulevard and Rainbow Boulevard are recommended as alternate routes for north- and southbound traffic.

Preliminary work was completed last spring and consisted of improvements to the sidewalk areas to meet federal Americans with Disabilities Act requirements, which included the reconstruction of concrete cross gutter, and curb and gutter. The current work consists of full-depth pavement removal and reconstruction, thin lift overlay, installation of new traffic delineations, bike lanes, and a pedestrian flasher north of Caliche Way.

Las Vegas Paving is the contractor. The city of Las Vegas is managing the project. The estimated cost of the work is \$1,300,000, with funding provided by the Southern Nevada Regional Transportation Commission's Fuel Revenue Indexing tax.
